TO WHOM IT MAY CONCERN

The Durban University of Technology, expects that all appointed Adjunct Professors undertake their research activities according to the set research tasks and outcomes. In this manner, we will ensure that the association is beneficial for both parties.

Specifically, one of the main tasks is to publish or co-publish journal articles and/or books in one calendar year and submit to the University before the end of Feb of each consecutive year to the Research and Postgraduate Office. The University claims for funds based on these publications from the Department of Higher Education and Training in South Africa. There are also opportunities for co-supervision of postgraduate students and joint grant applications for mobility or research running costs.

After two years of publishing and the subsidy's have been claimed from DUT, we will create a cost center where the funds will be put into your research cost center at the rate of 40% or otherwise that is determined by the institution from year to year.

We look forward to your support as we aim to build research capacity within the University and look forward to your support. If you have any queries please feel free to contact:

Ms Philisiwe Charity Cele
Email: celepc@dut.ac.za

We welcome you to the Durban University of Technology, may your time with us be most fruitful and fulfilling.

Yours sincerely
